NeoSOFT Technologies

UX/UI designer

NeoSOFT Technologies

Senior UX Designer:

- **My Aster** (*Duration: 2.3 years*)– A healthcare app (*Mobile & Web App*)– It helps in booking an appointment with Doctor for the user & their family members, order the prescribed medicines & take the home care services (Physiotherapy) which they can book their slots for. I did UX & UI work for:

- a. Navigation Concept
- b. Homepage Design
- c. Intelligent Booking Sysytem
- d. Directed & created the entire design system with design tokens, atoms and molecules structure, Typography, Components
- e. Meeting with developers to verify design feasibility
- f. Designed 4 complete modules
 - Aster Core: Manages user profiles & record
 - Tele–Consult: Consultation with the doctor
 - E_pharmacy: Order medicines like Tata 1 mg
 - Home–care: Order doorstep vaccinations & physiotherapy session slot booking

g. Executed testing application UIs to ensure proper implementation, and filing bugs to track problems/ discrepancies with the help of usability testing, A/ B testing & worked on empathy maps(task based).
